

CENTENARIO

BIONDI

2023 was a disastrous vintage on Etna, with the incessant rain which continued throughout the month of May until the middle of June. This, combined with a hail storm sadly led to a harvest of 30% less than the normal production, the reds being particularly affected.

However, we recently came across a vintage bottle from my Grandfather's production dated 1923, and decided to turn what was an unfortunate year into a memorable one.

Marking the centenary of Biondi wines, we've created a special edition blending our 3 reds; Outis, San Nicolò and Cisterna Fuori. The old label from the 1923 vintage has been specially redesigned for the 2,200 bottles of our "CENTENARIO".
